

**Review Pg. 16#(1 – 6)d Be sure to check answers at the back of the book**

**U1L2 – Review of Gr. 9**

Students will review addition, subtraction, multiplication and division of rational numbers with BEDMAS.

Examples

1. Simplify

$$\frac{-2}{5} + \frac{3}{-2} - \frac{3}{10} =$$

2. Simplify

$$\frac{3}{4} \times \frac{-4}{5} \div \frac{-3}{7} =$$
